

## Peking Denies Africa Charges

Tokyo, Oct. 27 (AP)—Communist China denied today charges that it wants to carry out "subversion" in Africa.

It said China respects the sovereignty of African countries and claimed that "the Chinese people are the most faithful and reliable friends of the African people."

The Chinese stand was made by a commentator in the official Chinese journal, *People's Daily*, and was broadcast by the New China news agency.

The article commented on the publication of the magazine *Revolution in Africa* which it claimed was "an out-and-out bogus" quarterly hatched by the imperialists and their agents to discredit China.
